## THE CHINA REVIEW.

PUBLISHED BI-MONTHLY, TENTH YEAR.

HIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of Notes and Queries on China and Japan, has reached its. Thirteenth Volume. The Review discusses those topics which are uppermost in the minds of students of the 'Far East' and about which every intelligent person connected with China or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new de-parture has been taken, and the Review new gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known 498 writers. It was thought that by extending the scope of the Review in this direction the Mayazine would be mademore generally useful.

The Review department receives specia attention, and endeavours are made to present a careful and concise record of Literature on China etc., and to give critiques embodying sketches of the Most recent works on such topics. Authors and 14 Publishers are requested to forward works to Editor, China Review, care of China Mail Office.

The Notes and Queries are still continued and form an important means of obtaining from and diffusing among students know The Correspondents' column also allord farther and greater facilities for the inter

change of views and discussion of variou Original contributions in Chinese, Latin or any of the Modern Languages are re ceived. The papers are contributed by th members of the various Consular, the Im parial Customs, and Hongkong Services and also by the Missionary bodies amongs

whom a high degree of Chinese scholarshi is assiduously cultivated. Amongst th regular contributors are Drs. Chalmers Eitel, Brotschneider, Hirth, and Hance, Pro fessor Legge, and Messrs Balfour, Watters Stent, Phillips, MacIntyre, Groot, Jamie son, Faber, Kopsch, Parker, Playfai Giles, and Piton, -all well-known name: indicative of sound scholarship and thoroug mastery of their subject.

The Subscription is fixed at \$6.50 pc annum, postage included - psyable in ad Orders for binding volumes will b promptly attended to; Address, 'Mans ger, China Mail Office.

Trubner's Oriental Record contains the following notice of the China Review:-The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, some what similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked or from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree o' Chinese scholarship is now assiduously cultivated and who are severally represented in the first number of the Review by papers highly creditable to their respective authors . . . Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-pie, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to Chira and the East, which will be a useful feature of the Review if carried out with punctuality and detail, we are glad to notice that 'Notes' and 'Queries' are destined to find a place in ita pages also. It is to be hoped that this opening for contributions on Chinese subjects may croke a similar degree of literary zeal to that which was displayed during the lifetime of its prede-cessor in the field, and that the China Review
